

## Associate Business Consultant

Veeva is a mission-driven organization that aspires to help our customers in Life Sciences and Regulated industries bring their products to market, faster. We are shaped by our values: Do the Right Thing, Customer Success, Employee Success, and Speed. Our teams develop transformative cloud software, services, consulting, and data to make our customers more efficient and effective in everything they do. Veeva is a work anywhere company. You can work at home, at a customer site, or in an office on any given day. As a [Public Benefit Corporation](#), you will also work for a company focused on making a positive impact on its customers, employees, and communities.

### The Role

Veeva is dedicated to building careers for new, young professionals. Generation Veeva is a global organization that offers multiple development programs and career paths. Workshops, mentors, career path planning, and on-the-job learning are all things you can look forward to as you grow your career at Veeva.

Join us as an Associate Business Consultant in our Business Consultant Development Program (BCDP) within the R&D Business Consulting practice. The role is specifically designed for those looking to jumpstart their professional careers who are interested in learning how to support Life Sciences (Pharma and Biotech) organizations by driving innovation and partnership in the industry. The R&D team supports the industry with time to market, operating models, business process engineering, or data strategy. If you have a passion for how strategy, data, and technology in the R&D space can improve industries that impact our everyday lives, this may be the job for you!

Qualified candidates must be legally authorized to be employed in the European Union. Veeva does not provide sponsorship for employment visa status for this employment position.

The anticipated start date for this role is **August 2023**.

While this role is Work from Anywhere, Associate Business Consultants are required to live within commuting distance from the Berlin or Frankfurt office.

### What You'll Do

- Learn how to create solutions, deliverables, and documentation
- Collaborate with Senior Business Consultants supporting key deliverables and timelines
- Gain an understanding of and contribute to the Veeva R&D Business Consulting team
- Demonstrate ability to assimilate new knowledge
- Support customers to realize the value of Veeva Commercial Cloud software

### Requirements

- University Degree (Bachelor's) with strong academic performance
- Don't have a university degree? That's OK if you have the equivalent skills gained through work experience or disciplined self-study
- 0-2 years of professional experience
- Fluent in German and English
- Ability to take business and technical concepts and express them as potential strategic solutions
- Excellent verbal and written communication skills
- Strong analytical and problem-solving skills
- Desire to work in an intense, fast-paced environment
- Ability to manage time in person and remotely, prioritize and meet deadlines
- Willingness to travel roughly 40-60% of the time – this can vary by engagement

### **Nice to Have**

- Degree in Life Sciences, Engineering, or another similar degree/work experience/Master's degree
- Prior work or internship experience in Life Science, R&D, and/or consulting
- Experience in Tableau or data visualization
