Business Intelligence Analyst (m/f)
Berliner Startup

Our growing logistics startup sennder is in need of an outstanding talent to join our Business Intelligence team.

sennder GmbH, located in the heart of Berlin, is changing the way people think about logistics. We revolutionize road freight logistics by making it simpler, quicker, and more cost-efficient to move Full Truck Loads across Europe. We offer the best option for moving freight even to the largest companies by providing a network of technology-connected trucking companies. Shippers get real-time GPS tracking on all shipments, and business analytics to improve their supply chain.

At sennder we value commitment, team spirit and your personal and professional development. Our mission is to offer our teams a diverse work environment by fostering a very friendly atmosphere and an energetic company culture. We enjoy to build and nourish long-lasting friendships across teams and often come together to plan fun events and activities.

Your Mission
- Be responsible for a revolution in truck network planning and optimization
- Prepare and optimize network-models to improve operational efficiency
- Test, configure and maintain our network models continuously
- Identify key drivers and relevant factors in the planning and optimization of truck networks
- Work closely with management, engineering and operations to develop and improve efficiency of our network planning

Your Skills
