Role

This is a fantastic internship opportunity for a web developer student. The successful candidate will be involved in a relaunch phase of both this web communication agency's website and a client's website. This exciting project includes brochures websites and full-scale web applications. You will work in partnership with the experienced web-designer manager who will support you in the back-end or/and the front-end development.

Tasks

- Re-developing an internal website in collaboration with the web-designer manager and assessing the potential improvements
- Developing an innovative system for multiple website, integrating a booking system and different search functions
- Find the best practices for the back-end or/and front-end part
- Testing and finally implementing the solutions.

Personal Skills

Essential:

- PHP / MySQL
- HTML / CSS
- Good communication skills
- Great time management
- Excellent attention to detail

Desirable:

- Knowledge of the Magento framework
- Outgoing sociable personality
