

Apply here

Start date

Flexible

Duration

6 months

Languages

Good spoken and written English levels are required (B2 onwards)

Location

Bristol, England

Bristol is the largest city in the South West of England sitting on the Bristol Channel. It has a reputation for its uniquely urban cultural mix, with thriving creative, legal and financial economies. Bristol also offers sporting excellence, a lively nightlife, bars and restaurants aplenty, music diversity and maritime history.

Are you eligible?

Are you a registered student?

Are you eligible to participate in the Erasmus+ programme?

Benefits

See website for details of all ESPA benefits. For all internships over 6 months, additional benefits will be paid. Details available at interview.

Role

This Software Developer internship will see the successful candidate working on this strategic project within an established development team and alongside the Technical Director.

The brief is to develop a quality Chatbot feature (they have a prototype already) to integrate to their current website development offering.

Tasks

- Assist with the build and test of a Chatbot.
- Write clean efficient code to integrate the Chatbot into websites, other third-party services and APIs
- Collaborate within a small team to build products to the best possible quality
- Document configuration and installation details of developed products

Desired Skills

- Familiar with Chatbot/AI concepts around intents and entities
- Comfortable with Node.js and AWS Lambdas
- Experience with webhooks/APIs
- Ability to work with HTML, CSS, JavaScript

The Host Company

This digital agency offers bespoke communication solutions for its clients, including the design of bespoke websites to assist law firms to better communicate and interact with their customers.
