

SGA Global Internship: Market Research

SG Analytics is a leading knowledge research company with offices in India, Switzerland, the UK and the USA. As a team of highly qualified and experienced analysts, we provide end-to-end customised research, analytics, data management, and information publishing services to our international clients.

As a **Market Research Intern** you will be working in a team of analysts to conduct voice-based primary research. Connecting with senior and C-Level executives from all around the world, your findings will contribute to enhancing the positioning and brand reputation of multinational corporations.

Your tasks

- Learning about trends and developments in different industries
- Collecting data for diverse studies by conducting telephonic interviews
- Conducting secondary research to identify potential respondents as per project requirement
- Translating questionnaires
- Transcribing recorded calls

Your profile

- Recent graduate of or currently pursuing a Bachelor's degree
- Excellent communication skills in English and at least one further language
- High punctuality and strict adherence to deadlines
- Proficient in MS Office
- Out of the box thinking capabilities
- First experience in interviewing as an added advantage

What we offer

- Challenging tasks and an international work environment
- Monthly internship compensation of 30,000 INR
- Appropriate accommodation in the company's guest house
- Reimbursement of travel expenses (flight and visa) and pick-up from the airport
- Option of permanent employment after successful completion of the internship

Join our Team

Location: Pune, India
Duration: 6 months
